

# St White's Primary School

## Challenge, Commit, Conquer and Celebrate

Dear Jay Class,

I hope you have all had a good Easter break and enjoyed spending time with your families. I have had a rather noisy one with my two children! We have watched some great family movies and spent a lot of time in the garden – the sunshine has definitely helped! That said, I am now looking forward to hearing from you all again about the fantastic learning that you are doing.

### Daily updates

Each day I will send out a set of work for you to complete. All instructions and resources will be included in an email, which will be sent to your contact email daily. It will also be uploaded on to the Padlet. If you want to ask a question or have help with the work, you can email me at [jay@st-whites.gloucs.sch.uk](mailto:jay@st-whites.gloucs.sch.uk) I would love to receive updates with copies of the work that you have completed so I can share them with the rest of Jay Class on the Padlet.

### Support

At school, we all work towards the same year 3 and 4 objectives. Some people grasp these very quickly and can move on to reasoning and problem solving; others have more support from adults or use resources to help them to achieve. For maths (for example), you will receive a link to access a video, worksheet and set of answers. I am aware that some of you will work really hard for a long time and achieve part of it, some will get to the end and some will whizz through quickly. We are all different. If you feel that extra support is needed, please do get in touch. I can give suggestions of how to adapt work, the questions that should be focussed on or give extra challenges for those who whizz through quickly.

### Planning

Any teacher will tell you that they never have a week where they plan exactly the right amount of work. Some things you think will take ages the class whizz through and others they get absorbed in when you thought it would be a quick task. If you find this happens at home, don't panic. We are all doing our best in extraordinary times.

### YouTube and the internet

Some of the lessons that you will be sent use YouTube or internet links. Ensure that you are following our online safety advice from PC Steer. Make sure your parents are aware of what you are watching and if you see anything that upsets you, please report it to them. If you are using videos or links that are different to the ones I have sign-posted you to, you must have permission from your parent/carer. If you would like further support on internet safety, there are helpful links on [https://www.st-whites.gloucs.sch.uk/web/it\\_at\\_school/335871](https://www.st-whites.gloucs.sch.uk/web/it_at_school/335871).

Power projects

I have attached the latest Power Projects and added them to the website. As always, these are optional but I thought they might be a handy backup to have in case for some reason you are unable to complete the lesson that I have sent (this might be because of resources, for example).

I think that's all for now but we will keep in touch. Have a great start to term!

Best wishes,

*Mrs Haroun*
