Technical vocabulary

Paint	It can be many colours and we use it to create something. It is like water but is colourful and we can create things with it.
Mix/ mixing	To put more than one colour together to make a new colour
Observe	Look carefully at something
Primary colours	Red, yellow and blue
Secondary colours	Green, orange and purple
Plan	To put your ideas onto paper

We are going to look at **Claude Monet's** seaside painting to help us talk about the colours and give us ideas.

Values

Challenge	How can make different colours?
Commit	To using the plan.
Conquer	How can I make a certain colour?
Celebrate	How can we celebrate our final pieces?

What I will know by the end of the unit?

- I will be able to name most colours
- I will be able to explore mixing colours together and talk about what is happening.
- I will be able to make different colours.
- I will be able to use the correct colours when painting real life things.
- I will know why it is important to plan my ideas first.
